"REAL DEAL SPRING ARTICHOKE"

The first spring artichokes arrived from Bob Cannard at [Green String Farm](#), and they are pretty darn spectacular. Tender and flavorful, they exemplify everything we love about spring. In the same delivery, we also received some fava beans that Chef Canales said, "set a new standard" as far as fava beans go.

Spring artichokes will appear on the menu starting tonight in a Roman-style shaved salad along with sunchoke, Cannard's fava beans, Meyer lemon, Pecorino Romano, and black pepper.

Also, starting tomorrow, artichokes will be braised

whole & served with pasta.

And lastly, from the trimmed leaves, artichoke soup of course.
