PORCINI MUSHROOMS

Tonight and the next few nights

Romano Isole just showed up with some beautiful porcini mushrooms foraged from the Sierra foothills east of Sacramento. Starting tonight, Chef Canales plans to have them popping up all over the menu, in such dishes as: *Gnocchi* with porcini, an entree of [Riverdog Farm](#) pasture-raised eggs poached in olive oil and porcini, shaved fresh as a salad, and *Porcici cannelloni*.

Call (510) 547-5356 or [reserve online](#).

We've been closely following the situation at Monterey Market over the past few weeks. At the [Oliveto Community Journal](#) we have posted some of our thoughts and concerns, as well as a note from Bill Fujimoto and a statement from our friend and tangerine grower, Lisa Brenneis. [Read more about it here.](#)
